# *Pansies* OUR SPECIALTY

For many years we have advocated the planting of Pansy Seedlings in the fall and our customers have really taken to the idea. Since then, more and more garden enthusiasts have become convinced that this is the best time to plant pansy seedlings.

You have blossoms all winter, even covered by snow; you can enjoy the first large Spring blossoms and get the benefit of the entire blooming season; and last, but not least, you save quite a bit of money by purchasing them in the fall. Yes, seedlings take a little care but if started in the fall your reward is certain.

## **PANSY SEEDLINGS—PLANT NOW:**

### ***Behnke's Special Blend***

Out of many trials over a period of years, we have found some few varieties to be the best for this area. This year for the first time, we have taken four of these very best named varieties from three of the finest sources of seed growers and combined them in a SPECIAL MIXTURE. Ask for

#### **BEHNKE'S SPECIAL BLEND**

which consists of

1. STEELE'S MASTODON JUMBO MIXED, the largest Pansy grown.
2. STEELE'S SUPER SWISS "400" MIXED, finest bedding, many rare colors.
3. VAUGHAN'S SUPER SWISS GIANTS MIXED.
4. CLARKE'S HYBRID BLEND, color range of Jumbos, plus brilliant red and ruffled pastels.

# Delphiniums

Delphiniums undoubtedly belong to the most graceful elegant perennials and yet they are not grown as profusely as they deserve to be.

**FOR BEST RESULTS** plant them in groups of six. We highly recommend planting them in the fall. Choose any kind of location but they do want a rich soil.

Delphiniums are relatively easy to raise and under proper care they should grow to a height of from 5 to 7 feet. The lovely shades of blue, purple, pinkish to white create a charming color effect and they make wonderful cutflowers.

## HARDY SUMMER PHLOX

FREE: ONE PHLOX WITH EACH ORDER OF 4

This season we are especially proud of our beautiful Phlox. Their dazzling colors have stopped many a car on the Washington-Baltimore Boulevard and drawn them in for a closer view—and this in the middle of July and August, too.

People from all over the country come and proclaim that they have never seen the like in brilliant bright red, deep pink, purple, snow white, watermelon pink, etc. They usually end up by taking home one or more plants to brighten up their own gardens during those hot months when it is more difficult to keep Perennials blooming.

Why not try a few yourself? Plant them this fall and you'll have a magnificent show all summer.

# Hardy Chrysanthemums

Our Mums will be in bloom shortly. Why not plan to drive out, enjoy the beautiful sight and bring a few home to treat your garden.

By purchasing our mums, you will not only get quality but also quantity. A quantity of flowers which as cutflowers alone would compensate for the cost of the plant.

# Hybrid Rhododendrons

*Our Rhododendrons Must Be Seen to Be Appreciated*

## IMPORTED DIRECT FROM HOLLAND

These fine specimen plants we are proud to offer you as an outstanding value. They are beautiful, low branched bushy 5- and 6-year-old plants, have survived severe winters and dry summers out in the open. Some show buds **READY TO BLOOM IN THE SPRING.**

Rhododendrons being scarce, we were fortunate in securing an excellent selection, many varieties in all colors, from deep red, purple, white, pink to lilac, etc.

Hybrid Rhododendrons can be planted in full sun or part shade. They have a tendency to grow leggy and spindly if planted in too shady a location.

For Your Convenience  
we have specially prepared
